Certification Exam Discount Program Now Available on NetSpace

The Networking Academy team is pleased to announce that Cisco certification exam discount vouchers are available to eligible students and instructors on Cisco NetSpace on 30 November 2012.

The discount program and the request discount voucher process remains the same. The only change is the time period for voucher eligibility. Please note that the voucher eligibility period is now three months starting from the date that a candidate becomes eligible.

Certification exam discount vouchers are available for the following courses:

CCNA Discovery 2: Working at a Small to Medium Business or ISP

CCNA Discovery 4: Designing and Supporting Computer Networks

CCNA Exploration 4: Accessing the WAN

CCNA Security v1.1

All eligibility criteria for vouchers remain the same:

Since NetAcad instructors are role models for their students, we encourage all eligible instructors to take advantage of the exam discount program to obtain and maintain their Cisco certifications. Cisco certifications can also boost your students' career opportunities, so please encourage all your students to become eligible for an exam discount voucher and earn certifications to advance their careers.

Qualifying student and instructor candidates will automatically receive an email notification after receiving a passing grade from their course instructor, prompting them to request a voucher through the Request Voucher link on their NetSpace homepage Learn tab. After three months from the date that a candidate first becomes eligible, the Request Voucher link will no longer be displayed. The following image depicts an example of links that may appear on a candidate's homepage on the Learn tab:

For more detailed information on the voucher request process and voucher policies as well as tips for receiving your voucher, please access the Certification Exams and Discount Vouchers page on NetSpace
