NETRIDERS COMPETITION! Post-Secondary

It's that time of year again! Time to gear up your students for the Cisco NetRiders Post-Secondary competition. Registration will begin September 25 and continue through October 16, 2013. For those of you who have competed before, the process will be fairly similar to past years. For newcomers, the ASCP will get you up to speed. Additional information can be found at academynetriders.com, and we at the ASCP will be releasing more details soon. Instructors, encourage your students to participate today!

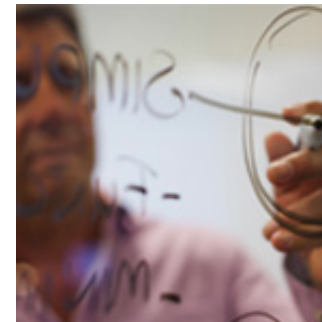

ASCP Email Issues?

Our server at the ASCP was recently experiencing some technical difficulties in the email department. If any of our members and academies had attempted to email us and were not successful, we sincerely apologize. Jonathan Chamboneth, our head of Systems Support, was able to remedy the problem and get our system back up to speed.

Attention Instructors!

If you are teaching courses on CCNA discovery or exploration there are bridging materials available for you located under the Educational Resources tab on your Netscape home page. This information is a delta between the old and new courses and we encourage you all to check it out.

Please feel free to contact us with any questions or concerns.
